TRAIL TRACER CHALLENGE

Design. Race. Triumph. Construct a high-speed wireless bot engineered for precision as it navigates a demanding track. Go head-to-head in a time-based competition, pushing the boundaries of speed and efficiency. Will your innovation set the pace and dominate the course, or will the competition surge ahead?

EVENT DETAILS:

ROUND 1: HEAD-TO-HEAD CHALLENGE

- The bots will go in a one-on-one competition, the details of which will be revealed on the day of the event.

ROUND 2: ADVANCED TRACK CHALLENGE

- Bots compete on a more complex track with additional challenges.

RULES & REGULATIONS:

- A team must consist of 2-3 members.
- All the team members must be from the same college.
- Participants must present a physical college ID card and registration details to participate in the event.
- An Individual cannot be a member of more than one team. Bots cannot be shared by two or more teams

- Each round will feature a new track and will be disclosed before the event starts. Bots must follow the black line on the white arena.
- The width of the track/trajectory will be 25 – 30mm.
- Round specific rules will be explained just before the commencement of the round.
- Only self-built bots are allowed; ready-made bots are prohibited.
- Once a bot starts, it must remain fully autonomous; any external control will result in disqualification.
- The dimensions of the bot should not exceed 20cm x 20cm.
- Participants must bring their own batteries and charging equipment.
- Battery must be placed on the bot. External wired connection is not allowed.
- Bots veering off the path or failing to complete the course will incur penalties.
- The decisions of the judges and the organizers are final and binding.

JUDGING & DECISIONS:

- The score calculation will be as follows:

$$\text{Score} = (\text{time taken to complete track}) + (\text{penalty})$$

DIRT RACE RC

The “Dirt Race“ is a high-energy event where teams design, build, and program bots to compete in an intense, action-packed race through a specially designed track. This competition tests the speed, agility, control, and obstacle-navigation skills of each bot as they manoeuvre through sharp turns, uneven surfaces, inclines, and challenging obstacles.

RULES & REGULATIONS:

GENERAL RULES:

- A team should consist of 2-4 members.
- Only students from the same college must form a team.
- Teams must construct their own bots, ready-made kits are not allowed.
- An Individual cannot be a member of more than one team. Bots cannot be shared by two or more teams.
- All the team members must be full-time students at an accredited university/college (UG&PG).
- Every individual in the team must have registered ID card of the event. Without which entry will be denied at the arena.
- There are no restriction on the number of teams from the same institute.

- Teams must arrive on time, and any anticipated delays must be conveyed to the organizers in advance.

BOT SPECIFICATIONS:

- Dimensions of the bot should not exceed the box size of 30*30*30cm (L*B*H).
- The bots weight should not exceed 3kgs. However, a tolerance of 5% is acceptable.
- Bot should be powered onboard only.
- Battery voltage should not exceed 12volts.

GUIDELINES

- Design a wireless bot within specified dimensions.
- If a bot topples or goes out off the track or any hand touch, then it will be reset from the previous checkpoint with a penalty.
- Limited technical timeouts will be allowed for technical issues.
- The organizers will not be responsible for any kind of electromagnetic interference in wireless communication.
- Only one run on track for each team.
- No practice runs are allowed on the main track.
- The time measured by the organizers will be final.
- The decisions of the judges and the organizers are final.
- Any misconduct or violation of rules by participants may lead to disqualification.
- The team that takes least time to complete the track wins.

- The organizers reserve the rights to modify rules on the day of the event.

SCORE CALCULATION:

- The score calculation is as follows:

Score = (time taken to complete the track in seconds) +
(penalties)

BLITZBOT SOCCER

“BlitzBot Soccer” offers a dynamic twist to traditional soccer, featuring high-speed matches played by robots. With rapid actions and energetic gameplay, it’s an exhilarating spectacle for both players and spectators.

RULES & REGULATIONS:

GUIDELINES:

- In the beginning, the ball will be kept in the middle of the arena.
- Each match consists of 2 halves.
- Bots must not remain immobile for more than 10 seconds.
- Pushing the opponent’s bot into the goal post is allowed.
- The controller’s name is announced before the game; it cannot be changed during the event and at the end of the event.
- One member should hold the bot’s wires during the game; the wires should remain slack.
- Golden Goal: In case of a draw, the player who scores the first goal will be considered the winner.
- If the team needs the technical timeout, they will be given 60 seconds each half. If the team does not repair the bot within this time, then it will be disqualified.

- The robot's structure should not change during the competition (e.g., if you have a wedge at the front, you can't convert it into a claw or vice versa).
- One member of the team must be present near the arena or in the room provided at any given time.
- Teams must be ready before the time mentioned in fixtures.
- A warning call will be given every 2 minutes from the time given for the team; after the third call, the team will be disqualified.
- In case a team is disqualified, the opponent team wins the match by default.
- The match will be paused in case of any entanglement of wires of both bots.
- The referee will check the bots before each match, and only after their approval can the bot enter the match. They have the right to reject the bots, taking into consideration the rules and dimension limits.
- Organizers will not be responsible for any kind of electromagnetic interference in the wireless communication.
- Teams must arrive at the venue at 9.30 am.
- The organizing team and the judges have full authority to change any of the above rules as per the circumstances

BOT SPECIFICATIONS:

- Length <= 30 cm.
- Breadth <= 30cm.
- Height <= 30 cm.
- A total of 5% tolerance is allowed on length, breadth, and height.
- Weight: 5 kg (tolerance of 10%).
- Wired or wireless bots are allowed.
- All the bots must have their own power supply.
- Bots must not be made from Lego parts or ready-made assembly kits.
- Participants can use creativity for design.
- No hitting mechanism is allowed.
- Minimum wire length of 5m for wired bots.
- The voltage between 2 points must not exceed 12.5V.
- AC supply not provided.
- The chassis must be blocked so that the ball does not enter inside it; the ball is only allowed to remain near the wedge.

GENERAL RULES:

- Team size: 2-4 members.
- The weight of the bot will be checked before starting each match. Once the weight of the bot is finalized, no modifications to the weight will be allowed.
- Judges and organizers' decisions are final.

- Teams must arrive on time, and any anticipated delays must be conveyed to the organizers in advance.
- Fixture assignments will be determined through the slot selection process. The need for a loser's bracket will be decided by the organisers based on the total number of participants.
- In case of 3 consecutive fouls or early start, the team will be disqualified.

JUDGING CRITERIA:

- Highest goals determine the winner.
- If the bot goes above the opponent or tangling of wires occurs, reset to the initial position.
- Decisions by coordinators and judges are final.
- Bots are not allowed to enter their own goal post.
- In case of a tie, a golden goal is conducted; the first team to score wins.

SKY SURGE

Teams design, build, and pilot custom RC aircraft to test pilot skill and aircraft maneuverability. The competition involves limbo flying and precise payload delivery. Aircraft must meet specific size and power constraints.

RULES & REGULATIONS:

PROBLEM STATEMENT:

- The team must design, fabricate, and demonstrate a fixed-wing aircraft system that can perform the tasks mentioned in the following rounds within the given constraints.

THEME:

- The theme of this competition is to evaluate the pilot's skill and maneuverability of the aircraft.

TEAM STRUCTURE:

- Sky Surge is an open-to-all event.
- The teams can have a maximum of 4 members.
- A team member cannot be a part of any other team.
- Teams must have registered through the official Tiara'25 website.
- The team members must possess a Tiara ID to participate in the event.

DESIGN CONSTRAINTS:

- The competition requires participants to design and fabricate an RC aircraft. Readymade models are not allowed.
- $T/W \leq 1$ without payload. (If excess thrust is measured, the throttle curve must be adjusted accordingly to achieve the required thrust)
- The propeller diameter should not be greater than 13 inches.
- The wingspan should be a maximum of 1.2 m.
- The aircraft can have powered take-off with a landing gear or can be launched manually by a person standing at ground level.
- Only electric motors are allowed. Using IC engines or any other means of providing thrust is prohibited.
- There will be a deduction in the points for the variation of the aircraft from the submitted design report.
- Use of gyroscopes (gyros) and programming assistance in receivers is prohibited.
- Programming for any step of the mission is not allowed.
- Use of FPV or any other support for flying is not allowed.

COMPETITION ROUNDS:

- The competition will be conducted in 3 rounds, and the final points will be the sum of points earned in each of the 3 rounds.
- Each team will be given 2 attempts in round 2 and 3.

- The aircraft must take off and land at the designated takeoff/landing area in all the rounds.

ROUND 1: ABSTRACT SUBMISSION

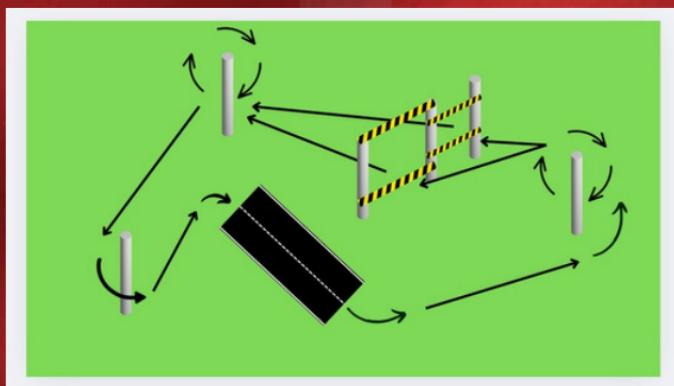

- The abstract must have standard formatting with a margin of 1 inch on all 4 sides, Times New Roman font with font size 12, and line spacing of 1.5.
- The abstract must not exceed 10 pages excluding the cover page and table of contents page and bibliography. With each extra page beyond the specified pages, 2 points will be deducted for each page.
- The abstract must include detailed information on the aircraft along with its dimensions, airfoil, material used, etc.
- Also, a section explaining how the aircraft was built must be included.
- Along with the abstract, participants must also send a zip file containing at least 5 and no more than 10 photographs of the aircraft while it is being built. Participants should be visible in the pics.
- The total points allotted to this round is **40**.
- The file should be in PDF format only and the filename should be according to the following convention:
ABSTRACT_SKYSURGE_<TEAM NAME>.pdf

- Abstracts must be e-mailed to team.aero@sjec.ac.in with the subject ABSTRACT_SKYSURGE_<TEAM NAME> by 17 March 2025, failing which 2 points will be deducted for each day after the last date.

ROUND 2: PRECISION PASS

- Pilots must fly the aircraft without the payload in this round.
- The timer will start as soon as the aircraft is released from the hand for hand-launched takeoff or as soon as the aircraft lifts off for takeoff with the landing gear.
- The aircraft must fly through the predefined circuit to gain points.
- There will be a limbo (Limbo-1) of dimension 5 meters x 4 meters (width x height) and another limbo (Limbo-2) of dimension 3 meters x 2 meters (width x height) and poles of height 3 meters.
- A maximum time of 3 minutes will be given for this round.
- The team must take off, circle the first pole 360 degrees for 10 points, clear either Limbo-1 for 30 points or Limbo-2 for 50 points, circle the second pole 360 degrees for another 10 points, go around the third pole(low Flying) for 5 points, and land safely at the designated landing zone.
- The team must land safely at the designated landing zone, earning an additional 15 points for a successful landing.

- If the team wants to skip the limbo they are allowed and no point points will be awarded for the limbo.
- The pilot must land the aircraft in the designated area before the end of 3 minutes to claim all the points scored in this round.
- The total points awarded in this round will be the sum of points gained by completing the circuit and safe landing
- The track will be once again briefed to the participant on the day of competition clearly.

ROUND 3: ACCURATE PAYLOAD DELIVERY

- In round 3, the aircraft must fly for at least 60 seconds carrying the payload and then drop the payload near the center pole.
- The payload will be a single golf ball of weight 45g and a diameter of 43mm. (Will be provided by the organizers)
- The payload must be placed inside the aircraft and no part of the payload must be visible from outside.

- In this round, the points are calculated based on the accuracy of the drop of the payload.
- A maximum of 3 minutes will be given to complete the attempt.
- A pole of height 3 meters will be placed at the center of the flying arena.
- After flying for 60 seconds, the pilot must drop the payload near the pole and then land safely at the designated area after flying for a minimum of 30 seconds to claim the points.
- The points will be based on how close is the first impact of the payload to the pole.
- The points are calculated based on this formula:

$$\left(\frac{10000}{\text{Distance of first impact of the payload from the pole(in cm)}} \right)$$

GENERAL GUIDELINES:

- The same aircraft should be used in both rounds, and it should be the same one as in the abstract. In case of damages during the competition, teams can repair the same aircraft but are not allowed to use a replacement. The repaired aircraft should be ready in time for the turn.

- Teams are suggested to carry additional components (motors, batteries, propellers, etc.) to avoid last-minute surprises at the venue. You will lose time/ attempt if you are not ready at your turn.
- The use of a 2.4 GHz radio is required for all aircraft competing. If the participants want to use any other frequency, they must inform the organizers in advance.
- Receivers installed in the aircraft must be in receiver mode only.
- Metal propellers are not allowed.
- Organizers will check all the systems (Servos, motors, etc.) for functionality before the competition. If found not working, teams will be dismissed from the competition.
- Please do not share parts of your aircraft (motors, ESC, Battery, etc.) with other teams. Each team is expected to carry all the equipment needed to participate in the competition.
- Given stringent safety requirements, if a pilot flies out of the designated flying zone, which includes the overhead of the event organizing and control section, as mentioned at the venue, he/she is disqualified. He/she must immediately turn back and land safely.
- In case of any disputes/discrepancies, the organizer's decision will be final and binding.
- Change in rules, if any will be updated on the official Tiara'25 website and notified to the registered teams.

TIMELINE:

LAST DATE FOR ABSTRACT SUBMISSION (ROUND 1)	MARCH 17, 2025
ROUNDS 2 AND 3	MARCH 20, 2025

- Note: In case of rounds 2 and 3 are not able to be completed within the first day, the competition will carry on for the next day (i.e. March 21, 2025).
